

CALL FOR PAPERS

Society of Allied Weight Engineers, Inc.

Serving the Aerospace - Shipbuilding - Land Vehicle and Allied Industries

Mass Properties Engineering

69th Annual

International Conference

May 22 -26, 2010 Hilton Virginia Beach Oceanfront Virginia Beach, Virginia

Non-members are welcome to present papers and/or attend

Papers solicited deal with current issues and recent advancements in mass properties and related engineering disciplines. Our technical tracks will cover the following topics:

- Integrated Product Design
- Flight Technology - Manned
- Advanced Design Characterization
- Ground Systems Design
- Systems Verification
- Product Life Cycle Management
- Marine Systems Design
- Flight Technology – Unmanned/Space

All Authors Receive Free One-day Registration

Background

Since 1939, the Society of Allied Weight Engineers has been promoting the recognition of Mass Properties Engineering as a specialized discipline. The principal means for accomplishing this objective is the annual international conference for presentations of papers and discussion of engineering standards and recommended practices. Papers and reports are published and distributed.

Abstracts

Abstracts of papers should include the title and the author's name, position, and company affiliation. They should be 250-350 words in length and should contain a statement of the problem or objective, the method of approach, and a summary of conclusions. The abstract should not deal with specific data. Send one copy to the Vice President – Technical Director by 14 Dec. 2009. Abstracts will be reviewed for technical track assignment. Final papers are due by 16 April 2010.

The International SAWE Web Site Address is <http://www.sawe.org/>

For additional information contact the SAWE Vice President – Technical Director
Bob Hundl Work: 281-853-1522 Facsimile: 281-853-1727

E-mail: robert.j.hundl@boeing.com or any Track Co-Chairman listed at the SAWE Web Site.
Directions to authors of papers are available and can be downloaded from the SAWE Web Site.
